

**Welcome** to Greenville Veterinary Clinic LLC, a full-service veterinary facility providing the finest in professional veterinary health care. The staff of Greenville Veterinary Clinic prides itself in offering the finest in personal attention to you and your pet.

Dr. Tammy Clark is a graduate of Penn State and earned her Doctor of Veterinary Medicine degree from Michigan State University in 1988. Dr Vanessa Wolf is a graduate of North Carolina State University. She earned her Bachelor's degree and subsequent Doctor of Veterinary Medicine degree in 2017. She joined the practice in 2017 as a full-time associate veterinarian.

Our technical staff is composed of highly trained, compassionate Veterinary Technicians and Veterinary Assistants. These technical staff members are trained in patient care and restraint, anesthesia monitoring, and laboratory analysis. In addition, all staff members are highly knowledgeable regarding the health and well being of your pet. Most questions concerning vaccination schedules, nutrition, flea control and routine health care can be answered by a member of our technical team, thus allowing the doctors time necessary for their patients.

## Services

GVC offers full service care for our canine and feline family members. Wellness care from puppyhood through geriatric care is a focus of our clinic. Our facility includes a complete in-house diagnostic laboratory, allowing same day results for most diagnostic testing. We utilize state of the art digital radiography as well as diagnostic ultrasound. Our surgical suite utilizes modern anesthesia monitoring equipment and anesthetic techniques to allow us to offer the safest surgical experience possible for your pet.

## Hours/Appointments

Our normal business hours are:

Mon-Weds-Friday	8:00 AM-5:00 PM
Tues & Thurs	8:00 AM-7:00 PM
Saturday	8:00 AM-12:00 noon

To allow ample time for all patients and scheduled surgical procedures, we see patients by appointment only. Please realize that we make a sincere attempt to see each client on time, and a phone call is appreciated if an appointment needs to be rescheduled.

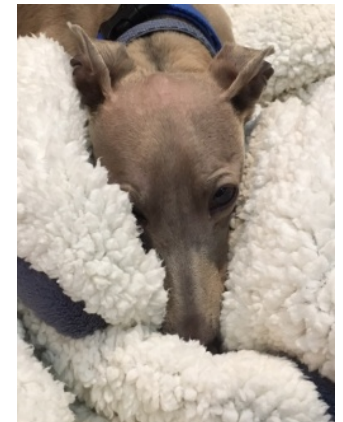

When you arrive for your appointment, please have your pet restrained, either on a leash or in a carrier. If you need a leash during your visit to our clinic, please ask a receptionist and she will provide you with one.

If you have an emergency requiring immediate attention after hours, please call our office number. In order to provide the best care possible for your

animals, pet emergencies after hours and on weekends are referred to one of the regional fully staffed emergency clinics. More information can be found on our website.

## Payment/ Fees

Payment is expected in full at the time services are rendered or upon discharge for hospitalized patients. The Care Credit payment program is accepted at our clinic as well, and you may ask the staff for more information or for an application. We make every effort to maintain fair and reasonable fees consistent with the quality of service provided. An estimate of proposed fees will be provided upon request.

We offer Petly Wellness Plans that allows you to spread your payments out throughout a 12 month period.

## Hospitalization

For the safety of all hospitalized animals, we require that all vaccinations be up-to-date. Animals requiring treatment such as deworming, flea treatment, etc. will be treated at the owner's expense.

## Boarding

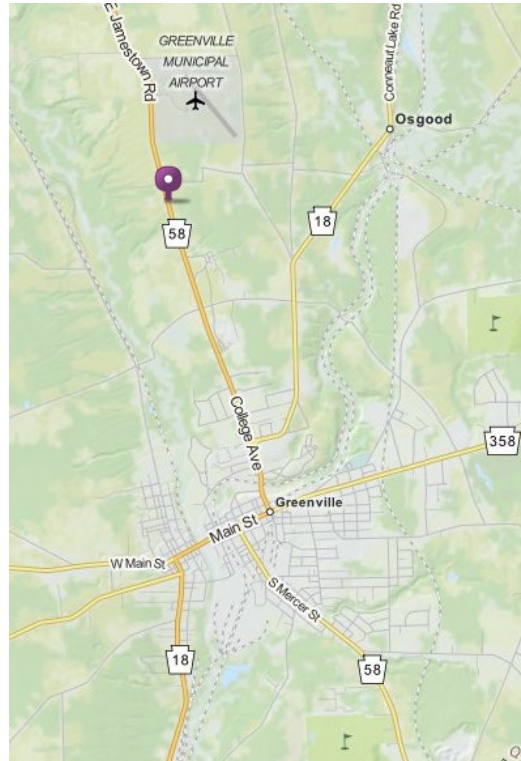

Greenville Veterinary Clinic offers a full service boarding facility for both dogs and cats. With comfortable runs and cages, and personal attention from our staff, your pet will remain safe and content while away from home. Ask to see our boarding pamphlet for more information.
